

Semiautomatic,
multispindle, single-
head boring machine

BORING SYSTEM 21 PRESTIGE

For horizontal and vertical drilling into wood-based panels and solid wood, for the furniture manufacturing

FAST HORIZONTAL DRILLING

Thanks to the 640 mm interaxis and the large working table, You can process 2 panels having 316 mm width at the same time

FAST VERTICAL DRILLING

You can process 3000 mm - long sides in 5 working cycles

PERFECT PANEL JOINTS

The ref. side fences, adjustable along a metric bar, with magnify glass and nonius, always represent a precise reference point for the operator and guarantee the perfect parallelism of the drilling operations

- **Small footprint: 1 mq**
- **Two times faster than a manual boring machine**

BORING SYSTEM 21 PRESTIGE SERVICE

Worldwide after-sale service.
Real-time, on-line remote assistance through a dedicated augmented reality APP.
Spare-parts availability for up to 10 years, shipment within 24 hrs

DATA SHEET

Spindles

Left and right spindles

N 21

N. 10 left - N. 11 right

Spindle interaxis

32 mm

Total interaxis:

640 mm

Max. tool diameter

40 mm

Max. boring depth

65 mm

Max. boring height

55 mm

Height of working table

860 mm

Max. panel thickness

60 mm (130 mm optional)

Max. panel dimensions

900 x 3000

N° 1 motor

HP 2 / KW 1,5 - RPM 2800

Standard pneumatic pressure

BAR 6/ 8

Air consumption

10 NL / cycle

Dust collection hood diameter

80 mm

Overall dimensions - net weight:

1015 x 990 x 1270 - kg 260

Package dimensions (machine)

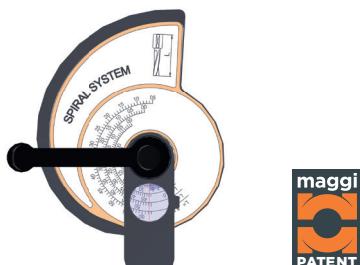

1115 x 950 x 1050

Package dimensions (long fences)

1500 x 120 x 60

Gross weight

kg 290

QUICK SET-UP

Adjusting the boring depth is extremely easy with the "Spyral System" device and the 10 mm automatic reset for vertical drilling

VERSATILITY

It drills at any angle between 0° and 90°

SAFE PANEL HOLD-DOWN

The quick-positioning, safety, hold-down clamping units ensure the greatest stability and steadiness of the working piece during the working cycle and the highest accuracy of the drilling process
